STATE DEPT. DEMANDS RELEASE OF AMERICAN HELD FOR RANSOM

Note To Mexico Says Jenkins Must Be Released Unharm-
ed Even If Mexican Government Must Pay \$150,000
Demanded by Bandits.

Washington, Oct. 25.—Demands were made on the Mexican government today by the state department that it effect the release of William O. Jenkins, American consular agent at Puebla, unharmed, even though it is necessary for Mexico to pay the \$150,000 ransom demanded by the bandits who kidnapped him.

While this note was going forward, Senator Myers, Democrat, Montana, introduced a resolution asking President Wilson to use all the armed forces of the United States in securing the release of Jenkins. The measure will be called up Monday.

The resolution also would direct that those responsible for the abduction of the consular agent be apprehended and punished. Senator Myers sought immediate action on the resolution but Senator Smoot, Republican, Utah, objected on the ground that a matter calling for such broad action "should not be considered hastily."

ANTI-STRIKE LAW WILL RESULT IN GENERAL STRIKE

Labor Officials Declare
Federation Will Go to
Preserve Rights of Un-
ions.

Washington, Oct. 25.—Passage by either house or congress of the anti-strike legislation contained in the pending railroad bill would result in a general strike vote throughout the country, officials of American Federation of Labor said today.

"We are willing to go to any limit to maintain the right organized labor has enjoyed for 20 years," said one federation official.

William H. Johnston, president of the International Association of Machinists, the second largest international union affiliated with the federation, said he would order a vote of the 350,000 members of his association. He and other officials said there wasn't a doubt that similar action would be taken by all of the 112 affiliated unions.

Mr. Johnston said there was increasing tendency on the part of some employers to bind their workers with individual contracts so as to shut out trade unions. This was particularly true, he said, in the metal trades, and "direct action" might be resorted to if all other means of advancing the interests of the unions failed.

It was made known that the proposed strike legislation would be one of the subjects to be discussed at the forthcoming conference here of union labor chiefs.

In line with the call from President Campers for financial support of the steel strike, Johnston announced that an assessment of \$1 a week on the entire membership of the machinists' association as a "defense fund" would be proposed next month.

WARSHIP FIRES ON RUSSIANS OVER PETROGRAD HOUSETOPS

Yudenitch's Army So Close
to Petrograd That Navy
Gets Into Action.

Copenhagen, Oct. 25.—The entire staff of Leon Trotsky, Bolshevik minister of war and marine of Russia, has been captured, at Tsarko-Selo, according to a Tsvet despatch to the National Tidende. Trotsky himself escaped by clinging to a railroad car and later fleeing from the scene in an automobile.

Troops of the northwestern Russian army rushed the minister and fired upon his car but Trotsky succeeded in reaching Petrograd.

The left flank of General Yudenitch's army is reported to be under fire from the Bolsheviks. The Bolsheviks, which is lying in the Neva river, inside of the limits of Petrograd, and shooting over the housetops.

TROTSKY LEADS ATTACK ON NORTHWESTERN ARMY

London, Oct. 25.—Rallying under the command of Leon Trotsky, Bolshevik minister of war and marine, troops of the Russian Soviet government have savagely attacked the lines of the Russian northwestern army and have succeeded in parrying, for the moment at least, the thrust of the latter against Petrograd, according to reports reaching this city. Tsarko-Selo and Tsarko-South of Petrograd have been recaptured from the forces of General Yudenitch, it is claimed and the advance of the Bolsheviks continues.

South of Moscow, where General Denikin's advance has been held to a certain degree, the hold of the Bolsheviks on the ancient city of Tsars, fighting is going on but nothing as to the results obtained has been learned. Reports indicate, however, consideration by the soviet leaders for a plan to withdraw all Bolshevik troops into Turkestan and to abandon Moscow.

Serbian forces are on their way to Odessa to assist General Denikin in his campaign.

Tobolsk, western Siberia, is said to have been captured from the Kolchak army by the Bolsheviks. This report, if confirmed, will indicate an advance of the Soviet army in that sector, as last reports showed them quite a distance to the westward of Tobolsk.

BANK ROBBERS KILL BEAVER FALLS BANKER

Beaver Falls, Pa., Oct. 25.—Vincent Sakarida, a director of the state deposit bank, was instantly killed and his brother, John Sakarida, the cashier, was seriously wounded when robbers attacked the institution here yesterday afternoon.

Four men drove up to the bank in an automobile and three of them entered. They ordered the Sakarida brothers to throw up their hands. Vincent Sakarida reached for a revolver and was shot dead. His brother opened fire on the gang, wounding one of them almost at the instant he was shot in the side. The robbers, wearing their wounded companion retreated to the automobile and drove hurriedly away toward the Ohio border. They are being followed by county officers and citizens.

Canton Mayor Warned To Restore Order Or Suffer Loss of His Job

Columbus, Oct. 25.—Upon receiving reports of serious rioting at Canton in connection with the steel strike, Governor Cox shortly after noon today ordered practically the entire Ohio national guard mobilized at Akron for immediate duty at Canton.

Every available machine gun company and infantry company from Akron, Shreve, Marion, Ada, London, Ashland and St. Marys were ordered mobilized. The mobilization order followed a report to the governor by Colonel John M. Bingham of the adjutant general's office, who has been making a personal investigation at Canton.

At the same time, Governor Cox sent a telegram to Mayor Charles E. Poorman, notifying him that he would be expected to bring about immediate order. The telegram stated that if this were not done, Mayor Poorman would be summoned to the governor's office Monday to show cause why he should not be relieved from office immediately.

In addition to Colonel Bingham's report, Governor Cox also received reports of rioting from other sources. The Canton Alloy Steel company wired the governor for state help today, saying that foreign steel workers on strike at its plant are using violence in hindering American workmen from entering the mill.

The telegram from the Canton Alloy Steel company stated that yesterday a mob of 1400 strikers severely beat up six of the company's workmen, and that today another mob of 600 strikers had beat up and shot two workmen. The governor also received a telegram from the Canton Retail Merchants' association advising him of riot conditions in Canton and asking for state aid. Colonel Bingham's report stated that strike conditions in Canton are bad and advised immediate action to stop rioting.

Under the orders issued by the governor, the national guard troops will mobilize in Akron as rapidly as possible and will be held there awaiting developments. Akron is only a few miles distant from Canton and the troops could be rushed to Canton in short order in case of serious trouble.

Whether the troops will be sent into Canton is still a question.

Call Miners' Action A Mass Attack Upon Federal Government

PRESIDENT CALLS CABINET FOR SPECIAL
MEETING TO CONSIDER PROPOSED
COAL MINERS' STRIKE.

WILSON WILL ISSUE STATEMENT TO PUBLIC REGARDING SITUATION

Senator Thomas Urges Executive to "Vindicate Power
and Majesty of Law" In Threatened Strike—Fears Violence and Bloodshed Will Accompany Strike.

Washington, Oct. 25.—After discussing the impending strike of bituminous coal miners for more than two hours today, President Wilson's cabinet adjourned at 1:20 p. m. to meet again at 4:30 p. m. It was stated that there was no announcement to make for the present.

Postmaster General Burleson said government operation of the coal mines had not been discussed by the cabinet. He said the purpose of the discussion was to find some basis of settlement between capital and labor. None of the other cabinet officers would discuss what transpired.

Washington, Oct. 25.—President Wilson today through Secretary Tumulty summoned the cabinet in special session to consider the strike of bituminous coal miners called for next Saturday. Director General Hines, of the railroad administration was asked to meet with the cabinet to present the situation from the standpoint of the railroads.

Secretary Lansing was confined to his home with a cold and could not attend. All other members of the president's official family were present and Secretary Glass presided.

Secretary Tumulty was present to convey the views of President Wilson on the situation.

"I am for the fight," said one member of the cabinet.

While there apparently was no disposition to criticize either operators or miners for the failure of the negotiations conducted by Secretary Wilson officials who discussed the situation spoke of a "mass attack on the government."

There seemed to be doubt whether the cabinet would issue a statement as to the government attitude regarding the coal strike. In White House circles the thought was that the government's position could best be stated by President Wilson in a formal statement to the public. Some officials thought the cabinet would recommend this course.

As they entered the White House the cabinet officials declined to make any forecast. Some members, however, were said to hold the belief that stern action was necessary in the face of the grave industrial situation existing over the country.

The senate Senator Thomas introduced a resolution calling upon the executive branch of the government to vindicate the power and majesty of the law in the threatened strike. The resolution, which is to be called up Monday, calls for a "mass attack on the government."

Director General Hines was warned today in a letter from the National Wholesale Coal association that while the coal dealers did not object to the right of the railways to confiscate coal mined for the dealers they would demand compensation for such action not merely on the basis of the fuel's value, but also on the basis of damage to business and other factors affecting the reputation of the dealers.

The resolution would pledge the "constant, continuous and unqualified support" of congress to the "national administration and all other in emergency confronting us."

One official had in mind was that of costs of coal to the public during the threatened strike. It was said that fair price committees working with Attorney General Palmer to reduce the cost of living probably would add coal to the commodities on which they have issued price ceilings. Officials said the department of justice would not undertake to set a national price for coal, because of the differences between mining costs and freight rates, but that the question would be handled locally.

Just before the cabinet met, John L. Lewis, president of the United Mine Workers of America, sent word to unions throughout the country that work in the mines would stop next Friday night.

Lewis said the strike would last "until the government is able to induce the stubborn coal operators to deal humanely with the men who mine the coal."

"And one man's guess is as good as another's on that," he added.

Before leaving for home members of the miners full scale committee said they realized now that public sentiment

STRIKER DENIES STORIES OF REDS IN GARY TROUBLE

Tells Senate The Strike Is
Backed By A. F. of L. and
That Eight Hour Day Is
Cause.

Washington, Oct. 25.—Reports of "red" activities in the steel strike have been exaggerated, the senate committee investigating the strike was told today by W. A. Rattenberg, a striker from Gary, Indiana.

"All of this weight has been put on talk about radicals to hurt us," he said. "It's a ghost conjured up since the strike began. This is an American Federation of Labor strike."

Strikers wanted an eight hour day, and "collective bargaining," Rattenberg said, adding that wages were not particularly the issue. His own pay averaged \$12 a day for 12 hours.

"We cannot protect ourselves unless we have organization," he explained. "The wages now are paid on a basic eight hour rate. If the hours were reduced, the pay would come down. We wanted to negotiate that question."

Denying all knowledge of anarchistic or I. W. W. associations in Gary, Rattenberg said all he knew of it was from newspaper reports which he did not believe, he said.

TWO NEGROES KILLED BY TRAIN AT PATASKALA

Two colored men, one about 30 and the other about 18, were killed by a Pennsylvania train Friday morning at York street, near Pataskala. Coroner Richards, who went immediately to the scene of the accident, said that there was no clue whatever as to their identity. The only thing that was found was a few lines of a letter in one man's pocket written by a girl in Georgia. Their appearance was that of hoboes. The bodies are being held at the Morristown undertaking establishment in Pataskala.

PROPOSED ORDINANCE TO INSTALL PLATOON SYSTEM IN FIRE DEPARTMENT BEFORE NEWARK VOTERS NOV. 4TH

The men of Newark are to have opportunity to pass judgment upon the proposal to establish the platoon system in the local fire department at the election on November 4th.

The proposition comes before the voters in the form of an initiative ordinance, this being the first time that legislation has been attempted in this way in Newark.

The proposition is now under discussion about town and expressions both favorable and opposed are heard. The chief argument in favor of the plan is that it will relieve the firemen of continuous service, the principal objection being that it will greatly increase the expense of the safety department.

The entire proposition will appear upon the November ballot, but as one time in the booth is limited the proposed ordinance is here published in full. It should be read and studied by every voter of the city.

Initiative Ordinance No. 1, fixing the hours of service of the members of the fire department, providing for vacations and compensation on account of sickness or injury and repealing all ordinances inconsistent herewith.

Be it ordained by the electors of the City of Newark, State of Ohio,

Section 1. That the Fire Department of the City of Newark, Ohio, shall be divided into two working divisions, commonly known as the two-platoon system, and that all officers and other members be and they hereby are granted twenty-four hours leave of absence every two days without loss of pay and in addition, that all members of the division of fire are hereby granted an annual vacation of fifteen consecutive days each year without loss of pay. That each member of the Fire Department shall be allowed pay.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 10c and 25c.

EXPERIENCED NEWSPAPER MAN HEADS DENISON'S NEW DEPT. OF JOURNALISM

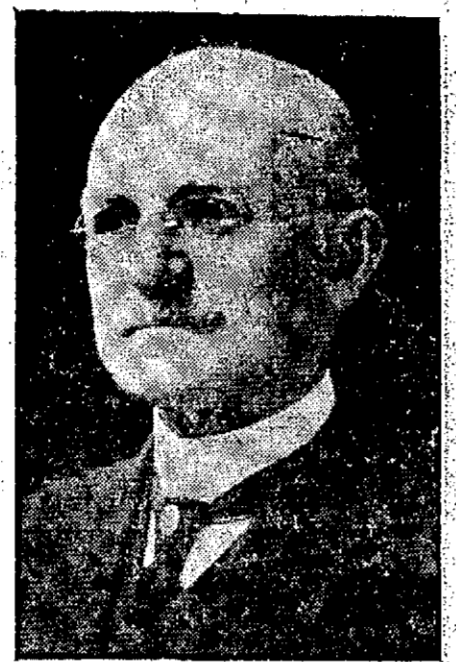

Prof. Dickerman, Harvard Graduate, Has Had Wide Experience On Philadelphia and Boston Dailies—Practical Course of Instruction Given Students in Real "Local" Room.

The new department of Journalism, organized this year at Denison University, is in charge of Prof. C. Henry Dickerman, formerly literary and dramatic editor of the Philadelphia Press, who has been engaged especially for this work and for the development of a uniform system of college publicity. Mr. Dickerman is a practical newspaperman of somewhat varied experience. A graduate of Harvard university in 1907, he spent some time teaching in preparatory schools before joining, in 1910, the local staff of the Press. During seven years of work for this paper he was successively reporter, feature-writer, copy-reader, editor in chief, and finally, in 1917, he was named editor of the Boston Herald. After a few months he joined the editorial staff of the Boston Sunday Post as a feature editor, in which work he remained until offered a position in the English literature department of Mount Holyoke college, South Hadley, Mass. After teaching one year at Mount Holyoke, Mr. Dickerman enlisted in the naval reserve, in which he was commissioned ensign last April. The new journalism instructor at Denison is of a thoroughly practical nature. A room has been set aside for the work by the university, and is equipped as nearly in the manner of a real local room as is practical. Students are given regular outside assignments; the copy is typewritten in regular newspaper style, and in the advanced "news editing" class is read, revised and headlined as would be done

DR. C. L. WILLIAMS IS OLDEST FACULTY MEMBER

Prof. Charles Luther Williams was born June 8, 1851, at Imlaystown, a small village in central New Jersey. At 10 years of age he was obliged to leave home and earn his own living, which he did for eight years by working on a farm. He was able to attend public school a part of each winter during these years. He then attended Pennington seminary and Peddie institute, both institutions being in New Jersey, and taught public school until 1874, when he entered Princeton university and graduated in 1878, taking the highest honors of his class in public speaking, and serving during his senior year as editor-in-chief of "The Princetonian," the college paper. For five years after leaving college he was professor of English in Pennington seminary, and the last two years he was vice president of the institute. In 1882 he was married to Miss Mary Elizabeth Giberson of Imlaystown, N. J. In 1884 he was graduated from the Crozier Theological seminary and was at once called to be pastor of the Baptist church at Upland, near Philadelphia. This at that time was the wealthiest Baptist church in Pennsylvania, and one of the most influential in the entire denomination. After a remarkably successful pastorate of nine years he was elected professor of rhetoric and English literature in Denison university, and is now the oldest professor in active service in the institution. He has written much for the press and has published "Outlines of Literature in England from 449 to 1350," and

"Oxford University and the Rhodes Scholarships." He has frequently been an appointed speaker at important Baptist gatherings, both state and national. He has very often lectured at teachers' institutes in Ohio. He received the degree of B. A. from Princeton in 1878, and the degree of M. A. from the same institution after pursuing post-graduate studies for

three years. In 1915 he received from Bucknell university the honorary degree of L.H.D. He is a member of the Central Ohio Schoolmasters' club, the Kilt club of Columbus, the Rotary club of Newark and of Center Star Lodge, F. and A. M. He has one daughter, Mrs. George W. Walker of Cincinnati.

D. A. R. SUPPER IS SOCIAL EVENT

Society turned out in force Friday evening for the supper in the Baptist church given under the auspices of the Daughters of the American Revolution for the benefit of the Community Federation of Granville Women. Not only does the cause make common appeal, but many housewives in Granville being without cooks are glad to dine in public occasionally. Mrs. Stienney was in charge of the committee on tickets; Mrs. J. D. Thompson of the committee on the supper; Mrs. W. E. Clemmons of the service; and Miss McGinnis of the tables. A full report of the result will be given at the next meeting of the federation on the second Tuesday in November.

SCIENTIFIC ASSO. BROADENS SCOPE

Organization of University Scientific Dept. Plans Program For Meetings During School Year.

In this department about 175 students are beginning

The French department under Prof. August Odebrecht has a class preparing a French play for presentation later in the semester. The play chosen is Moliere's "Le Bourgeois Gentilhomme" and it will be in the hands of Miss Robinson, who is experienced in such work.

OUR GRANVILLE PAGE

With today's issue of the Advocate a new feature is presented for our Granville readers which we believe will be appreciated by Granville people as well as by former residents of the village and former students of Denison university and allied institutions.

While the feature is intended to meet a demand among these people, we believe that all Advocate readers will find in the columns of this page, news and information of great general interest.

We also believe that the Granville business men will appreciate the value of a medium through which their messages to Granville and Licking county buyers may be sent.

Already the Advocate has met with such a cordial reception both among the business men and among the readers that we can predict that the feature will be permanent. On this page will be found news of the various activities in college, home and business circles in Granville and vicinity.

The daily news letter from the village will not be discontinued. It will appear each day as heretofore, with the addition of an entire page of village news once each week, which will appear on Wednesday hereafter.

The Granville correspondent of the Advocate is Mrs. Burton Case, Auto phone 8270.

PLAY BY NEWARK GIRL GIVEN AT SHEPARDSON

"Out of the Desert," a play written by Miss Ava Ballou of 77 Seventh street, Newark, was presented at the Shepardson Y. W. C. A. Sunday even-

ing by the Denison delegates to the Y. W. conference at Eagle Mere last June. The play represents the girl, lost in the Desert of Doubt, from which she is led by Opportunity, who shows her the way to Eagles Mere. "God's Garden." As Opportunity leaves she charges the Girl, after she has found Faith, to return to the desert, and lead out those that are lost.

In the beautiful garden, she finds Prayer, and Faith, and is very happy. But Self-Sacrifice reminds her that she still has a duty to fulfill. Faith takes the Girl by the hand, and leads her back into the desert, to the "Foreign Girl" who has never heard of Christ, and the Working Girl who lives beneath the flag, and can "only dream of ever having aught of happiness."

There with these two, Love is found, and through self-sacrifice and Love, immortality is revealed.

LADDER FALLS; OBITTS SUFFERS SEVERE HURTS

William Obitts while painting the roof of the Allen residence in North Mulberry street Thursday, fell to the ground, and sustained bruises about the chest which, it is feared, may indicate internal injuries. The ladder, insecurely fastened slipped and there was nothing to break the fall. Mr. Obitts had no assistant but several college boys passing rendered first aid helped him to his feet and discovering that no bones were broken, assisted him to a doctor's office.

Thoroughly equipped for his important position, he also wields a tremendous personal influence over the men. He has developed many winning teams in football, and basket ball whose victories reflect glory, not only on old Denison but also on Granville and on Licking county. Mrs. Livingston was formerly Miss Grace Bonham of Piqua.

HEAR REPORTS ON W. C. T. U. MEETING

The meeting of the W. C. T. U. held in the Community rooms Friday afternoon called out a fair attendance, as it was only recently that the organization voted to hold its meetings here once a month instead of at private home once in a fortnight. Mrs. John McClain led the devotional service and Mrs. Yingling led in prayer. Reports of the state convention were given by Mrs. Moore, Mrs. Hayes and Mrs. Lucy Van Kink, editor of the Ohio Messenger. At the convention the Licking county chapter was awarded a banner for the excellence of its work, which is in possession of Mrs. Lucy Simpson of Newark, president of the county union.

MANY DENISON STUDENTS ARE WORKING WAY THROUGH COLLEGE

General Shortage of Labor Makes It Possible for Young Men and Women To Get Work Which Fits In With School Duties.

Student aid in Granville has come to be recognized by town as well as college, and the boy who now elects to work his way is no longer handicapped by the old time hardships.

In these days of labor shortage, Denison University is dispensing with as much outside help as possible, and is doing her own "housekeeping."

Here are some of the things that Denison students have undertaken to do to help pay their college expenses and at the same time to relieve the labor situation: Bookkeeping, messenger service, building repairs, athletic field construction work, waiting on table, residence hall duty, assisting and paper marking in various departments. In practically every department, under the new system, has the services of at least one student able to do type-writing and often to take dictation. Certain departments, like that of household economics, find it possible to handle a considerable bulk of their work by "student aid" help alone.

In President Chamberlain's office a young man is on duty every hour of the working day, ready to carry an important message or look out for anything that requires immediate attention. The duty is apportioned to students hour by hour. If there is no work, the student is at liberty to study.

Dean Tauner has students on duty throughout the day for the sole purpose of checking up the class absence reports, which are now turned in according to a very thorough system.

Another system—of signed cards—takes care of chapel attendance, and is in the hands of student workers.

The new laboratory method of teaching, now in use in the Greek and Mathematics departments, and being tried out in a modified form in some of the English work, makes possible the employment of quite a number of advanced students in these departments, whose rank is that of assistant instructor. These students are on duty for specified periods in the "laboratories" where they correct written work, explain and give assignments. In the various departments of science, laboratory assistants have long been employed; this year the old system is simply expanded.

Under the direction of Professor Coons, men in Granville college may be given outside work on pleasant days; this consists usually of helping with the construction work on the new athletic field, in which the repairs in Marsh Hall and other campus buildings

Aside from the regular students aid work is the organized waiting on table, which provides the service in Shepardson Commons (the girls' dining hall) and in the fraternity houses. Men in Granville College apply for their work by the semester and receive their meals in return.

Women in Shepardson College may apply for "hall duty." In the cottages, the two girls who are assigned this duty are responsible for answering telephone, lighting the house at the right hour, and tending the door. These girls live in the cottage and are on duty for the semester. Others, non-resident, may apply for hall duty for six hours a week. They go to the halls assigned to them, and remain on duty one hour at a time. This work is arranged in reference to the student's schedule of classes.

For all these kinds of work, the payments are made on a systematic basis. Each hour's work is valued at from 20 cents up, usually to about 60 cents, according to the nature of the work. More skilled work is higher paid than less skilled. The total amounts to be earned, covering the scholarships in these cases, range from \$25 to \$50. It has been found that the older system, whereby 80 endowed scholarships are given out each year, does not meet the needs of all students in Denison. For this reason the Students Aid plan has been developed, and as now being perfected seems a satisfactory solution.

The names of the two candidates for municipal judge will appear upon a separate non-partisan ticket at the November election. Every lawyer in town recognizes Frank A. Dolton's qualifications for the judgeship.

City Solicitor Henry C. Asheraft has been faithful in his duty as advisor to the city council and in representing the city's interest. He is a candidate for his second term at the election on November 4th.

Bert O. Horton has proved his ability as clerk of the courts and justice of the peace and he will be just as capable in the office of city auditor. The election of a municipal judge for Newark abolishes the office of justice of the peace and Justice Horton will therefore not be allowed to finish the term of which he was duly elected.

Mayor Atherton the friend of vice? The American Tribune would like to have it so appear but everybody knows that conditions are now better than they have been for years. There is less vice in Newark now than at anytime in the city's history.

The effort to make political capital out of the East Main street paving contract continues. The court has held that both contracts should be rejected and finds no suggestion of fraud or conspiracy to defraud. Unfortunately there will be some delay in completing the street improvement but there is nothing about the matter that should arouse a heated political discussion.

PRESIDENT'S LEADERSHIP.

In his admirable discussion of the League of Nations and the making of the peace treaty at the Newark high school auditorium last night, Mark Sullivan, editor of Colliers, the national weekly, first spoke of President Wilson, pointed out the great events with which he has been burdened and remarked that the only surprise is that he had not long ago broken under the strain.

Mr. Wilson's illness might be called the first time that a President ever broke down as the result of overwork and devotion to duty. Presidents have always realized the necessity of keeping in good physical condition. While they have usually left office showing weariness from the strain, there has

never been a case where a long period of work has so driven a man to the breaking point.

The country owes a great debt of gratitude to Mr. Wilson. His devotion to the public interest has been almost unprecedented. He has not had any real vacation for four years. The burden has been on his shoulders every minute.

And it is marvelous, considering what he has carried, with what equanimity he has borne it. Subjected as he has been to a torrent of abuse and vilification, he has not engaged in recrimination. He has been content to leave the appraisal of his conduct to the sober judgment of the people.

Only a man of great strength and great consciousness of rectitude could maintain such calm through storm.

Mr. Wilson is called by his opponents an "idealist." An idealist is simply a man who looks ahead farther than other people, and is not satisfied with compromises with evil and selfishness, but wants to act on a basis of strict justice and equity. He is ahead of his times. What he thinks today all the people will think tomorrow.

It seems unlikely at this writing, that Mr. Wilson could undertake the strain of the presidential nomination for a third campaign. But his influence will be a power for a great many years. He has set higher standards and his party and the country will have to come up to them.

BIG MARKET FOR NEWARK PRODUCT

Riegger Writes Chamber of Commerce That Furniture of All Kinds Is In Great Demand In East.

The Chamber of Commerce is endeavoring to make its non-resident members feel that it is as big a part of their duty to boost Newark at all times as the people who are here at all times.

Many of the non-residents are traveling men, and they have been asked to "sell Newark." In response to this campaign a letter of suggestions has been received from F. E. Riegger, who is located at Newark, N. J. Mr. Riegger is in part:

"I am going to give you a few pointers here, as to manufacturing plants that could locate in Newark, Ohio, and which, if started now could immediately market their goods in the East.

"Furniture of all kinds: chairs, dining room suites, bedroom suites, and especially iron beds mattresses, etc.

"The demand is enormous but the supply is short, and anyone who is now manufacturing any of these articles can find a ready market here throughout the East.

"The traveling traffic is enormous on account of lack of house room and accommodations. People travel as far as from Philadelphia to Trenton to go to the work. Today I met a contractor in Perth Amboy who is employing help from Newark, New Jersey, and he is required to pay his men for eight hours work when two hours of the eight are used in transit back and forth. He actually gets just six hours work and is also compelled to pay their transportation.

"We have ahead of us the greatest epoch of prosperity that has ever been known. Business men here feel confident and are not afraid to go forward along the lines of their business.

"Whole blocks are being erected in tenement houses in Philadelphia and in Newark, New Jersey. Building cannot keep pace with the demand.

"Newark, Ohio, is an ideal city, has every accommodation and even more than the large cities. She has cheap rent, and cheap living conditions, good sanitary conditions and plenty of room to breathe in. Clothing and eatables are very cheap there, and most everything may have their own truck garden patch. Newark, Ohio, has cheap gas, electricity and water, but she lacks the onward rush and pep that is so noticeable in the large cities. The men there who can afford to invest their money are afraid to venture. They are the ones who can make or break a city.

"Newark, Ohio, should awaken now and get her share of the great prosperity that always moves from East to Westward, and be ready to get her share of what the world has in store for her.

"A real leader is necessary, and if it cannot be found there, import one, but by all means, cooperate and bring to the attention of those who have money the vital importance of their awakening to Newark, Ohio, shall sleep on, for she has not progressed in proportion as she should in an industrial way.

PROBE COST OF CAMP SHERMAN AT HEARING

Columbus, Oct. 25.—Approximately 100 witnesses will be called before the congressional committee which will come to Columbus next Wednesday to begin a formal investigation of the "cost-plus" system in vogue in the construction and operation of Camp Sherman, according to W. S. McGinness, assistant sergeant-at-arms in the house who was in Columbus yesterday.

McGinness arranged with Adjutant General Layton for use of the Ohio senate chamber for holding the investigation. The list of witnesses to be called was not given out. They are said to include many contractors, former army officers and others who had to do with furnishing of supplies and materials and the construction of the Cantonment.

The sub-committee which will come to Columbus to make the probe is headed by Representative John C. McKenzie, Republican, of Illinois, Representative Roscoe McCollough, Republican of Canton, and Representative Frank Denison, Democrat, of Michigan. The committee will be accompanied by a corps of lawyers, stenographers and investigators. Field investigators have been in Ohio for several weeks, gathering evidence preliminary to its presentation to the committee.

The sub-committee will probably remain in Columbus until Saturday, when it will proceed to Camp Sherman for further hearing. From Camp Sherman the committee will go to Camp Grant, Illinois, for a similar investigation. Representative H. C. Claypool of Ohio, who will attend the Columbus hearing.

Licking Co. Has Failed

To raise its quota of \$2970, for the Roosevelt Memorial Association by \$1500. The receipts showed but a trifle over one thousand dollars last evening. The campaign will fail completely unless there are a large number of voluntary subscriptions for sums ranging from one to ten dollars.

Warren Suter, treasurer, will receive your contribution at the Newark Trust Company. It is impossible for the workers in the campaign to see every one who wishes to contribute, hence the local organization is taking this means of reaching the public.

"In all sections of the country men and women are today thinking and dreaming of Roosevelt and the manner in which America can best honor his memory. The Roosevelt Memorial Association believes that it is correctly interpreting these musings and these dreams in declaring that the country shall give its memorial to Theodore Roosevelt two forms of expressions:

First: A memorial that shall enable the people to record at once and forcibly their determination to uphold and maintain the staunch Americanism of Theodore Roosevelt.

Second: Permanent memorials that will, as nearly as possible, correctly interpret and perpetuate the influence of his character and of his stalwart Americanism to future generations.

To carry out the second, the Roosevelt Memorial Association has determined to enlarge its membership to include not only those who knew Colonel Roosevelt personally, but all those also who loved and followed him and were his friends, though afar off.

Each contributor—be his gift small or large—will be enrolled as a perpetual member of the Roosevelt Memorial Association and will receive a certificate of membership. The money received will be used to provide the permanent memorials."

The Committee calls upon all friends and followers of Theodore Roosevelt to join in honoring the memory of a man who loved American people even as they loved him.

GRADE SCHOOLS OPEN BASKETBALL SEASON

The public school basket ball season was informally opened when the Seventh and Eighth grades of Woodside school battled at the Y. M. C. A. gymnasium yesterday afternoon after school.

Seventh Grade. Eighth Grade.
The older boys played good ball but it was up to the under class to slip in a few goals during the last minutes of the game that gave them the long end of the score 13 to 9.

Des Moines, Iowa, Oct. 25.—Eight of the nine governors of coal producing states asked by Governor W. L. Harding of Iowa to express their view on a conference at Indianapolis to discuss a way of averting the threatened coal strike, have replied favoring such a meeting. Governor Harding said today the conference probably will be held next Wednesday.

O. S. U. FACES MOST IMPORTANT GAME TODAY

Ann Arbor, Mich., Oct. 25.—Ohio State and Michigan, two of the five western conference football teams which went into today's contests unbeaten, clashed here in what was considered by many, football fans, the "big game" of the day. A defeat for either team meant virtual elimination from the conference championship race.

Ohio State was battling for her first victory over the Wolverines who have downed the Buckeyes thirteen times and been held to a tie twice in twenty-two years.

On the broad shoulders of "Chic" Harley, Ohio State captain and all-American half back, rested Ohio State's hopes.

Harley's ability, his fleetness of foot, his wonderful openfield running and his kicking constitute the strength of the team. Harley's presence the Buckeyes were slight favorites to win in the titanic struggle.

Admittedly the class of the western conference, which were team care win today's decision is likely to be a heavy favorite for the conference championship.

Fortified by the return of a dozen letter men from last year, and with a team, Ohio State opposed Michigan with the most powerful eleven in Buckeye history.

In contrast to last year's eleven which was beaten by Michigan 14 to 0 on Ohio Field, many of the first string men on the 1918 Buckeye team have given way to other players this fall and are warming the bench.

From a week ago when Faculty Manager Bertin feared the collapse of the ticket sale, standing room was at premium.

The Perry Field stadium has a seating capacity of 26,000 and standing room for 4,000 more. Between three and four thousand Ohio State rosters followed the team here, two sections of a special train arriving late this morning with the main body of Buckeye adherents.

CALL MINERS' ACTION

was largely against the miners, but contended there would be a quick change with the "first evidence of profiteering."

CABINET WILL OUTLINE DEFINITE PROGRAM

Washington, Oct. 25.—A definite program to be placed before President Wilson by the cabinet to the government side in the coal strike will be formulated by the cabinet this afternoon it was said at the White House.

While no definite decision had been taken when the cabinet for luncheon, Secretary Tamm said the decision at the morning session disclosed that the president's official family was of one mind and "not a bit wobbly." He added that when the program was presented to the president Mr. Wilson was expected to make a public statement.

LANE SAYS NATION GROWING RECKLESS

Washington, Oct. 25.—Secretary Lane, who was chairman of the national industrial conference, wrote President Wilson today supporting the recommendation of the public group that a new conference be constituted at once to carry on the work for which the original conference was called.

In this connection, Mr. Lane issued the following statement:

"The industrial conference never really got started. It died at its birth because questions arose which it was not prepared to meet them. This should not end the effort to do this business of adjusting labor troubles by good sense instead of force. Oh, for a few days of real sanity, when with composed nerves and calm judgment and without bitterness of feeling we could look at our problems and meet

them with our traditional hopefulness and confidence.

"Recklessness is in our blood, a great willingness to take risks that we have no right to take. We will suffer for this spasm of historic self assertiveness on all sides. I want to see a new conference of leading minds that will think in practical terms, at a council of national defense against the kind of civil war some seem to think another irrepressible conflict.

GOVERNORS MAY CONFER TO AVERT COAL STRIKE

Des Moines, Iowa, Oct. 25.—Eight of the nine governors of coal producing states asked by Governor W. L. Harding of Iowa to express their view on a conference at Indianapolis to discuss a way of averting the threatened coal strike, have replied favoring such a meeting. Governor Harding said today the conference probably will be held next Wednesday.

CANTON MAYOR

(Continued From Page 1)

Canton probably will depend upon that action the city authorities at Canton take.

Colonel Benson (W.-Hough, who commanded the Ohio regiment in the famous Rainbow division in France probably will have charge of the troops.

According to reports received here, there is no trouble in Akron.

A telegram was also sent by the governor to the sheriff of Stark county saying that reports reaching Columbus and discrediting so in light of the law.

Furthermore, that you are not doing your duty to prevent them. I shall expect immediate action by you.

Otherwise, I will give you an opportunity for personal hearing in my office Monday morning to show cause why you should not be relieved from office."

A similar telegram was sent to the sheriff of Stark county in which the governor said "I shall hold you to strict accountability."

It was pointed out, however, that under the state constitution the governor does not have the power to remove sheriffs from office, although he has such authority in the case of mayors of municipalities.

Later Adjutant General Layton said that under the governor's call only about 500 troops would be mobilized at Akron. This is less than half of the Ohio National Guard as it is at present organized.

General Layton said more troops could be sent on short notice if it became necessary.

Colonel Hough, was announced, would leave for Akron with his staff late this afternoon. General Layton estimated that all of the militia companies ordered mobilized would be in Akron by tomorrow.

Machine guns and ammunition from the state arsenal in Columbus were shipped to Akron this afternoon.

VICTIMS ARE AMERICANS

RIOTERS ARE FOREIGNERS

Canton, Oct. 25.—Mayor Charles E. Poorman said yesterday he would not ask for troops except as a last resort. Poorman is a Democrat, serving his first term as mayor. He was defeated for re-nomination at the primary election in August. Prior to his election as mayor he served for eight years as treasurer of the city.

One man, John Catton, Republican, said he had not received Governor Cox's telegram and would have no statement to make until he received the message.

Six workmen employed by the United Alloy Steel corporation were attacked and beaten by crowds of foreigners near the steel plant during rioting Friday night and early this morning.

All those beaten were Americans. One man, Thomas Llewellyn, 65, is in a serious condition. He was beaten about the head, his nose broken and he was trampled and kicked before rescued by officers. A crowd of 2,000 foreigners lined the streets leading to the plant last night. Shots were fired at three workers shortly before day, light but police said no one was hurt. A police officer was attacked and beaten during the morning.

Wall Street.
 New York, Oct. 25.—Stocks became extremely reactionary soon after the opening of today's session. Extensive selling seemed to be prompted by overnight advices bearing upon industrial conditions. United States steel and many other leaders fell to lowest prices of the week. A number of speculative issues were 5 to 15 points under their highest quotations for that period. Extreme losses in steels, equipments and oils ranged from 2 to 10 points. Shipping lost 2 to 6, rails 1 to 2 and miscellaneous specialties 2 to 5. The closing was weak. Sales approximated \$60,000 shares.
 The week-end session of the stock market opened with moderate selling of popular issues which had its basis of unfavorable late developments. Notions and their subsidiaries were almost the only exception to the reactionary trend but the movement in that quarter was somewhat mixed. Gains of 1 to 2 points in Pierce Arrow, Studebaker, General Motors, Goodrich and Stromberg were offset by declines of 1 to 3 points in Studebaker, Baldwin Locomotive, United States steel, Republic Iron, leading oils and shippings. Losses were extended within the first half hour, rails also becoming heavy.

Chicago Grain Review.
 Chicago, Oct. 25.—Traders in corn adopted a waiting attitude today, and refrained as much as practicable from incurring any new risks.
 Opening quotations, which varied from a quarter decline to 3/8 advance with Dec. 1.26 1/2 and May 1.23 1/8 to 1/2 5/8, were followed by a slight general setback.
 Oats paralleled the action of corn. After opening 1/4 off to 3/8 up including December at 71 1/4 to 71 3/8 the market tended to sag. Provisions, like grain, were dull and unchanged.

AUDITORIUM
"Twin Beds" Tonight.

Solitary Field and Margaret Mayo, authors of "Twin Beds," the Laugh Festival which A. S. Stern and his company are sending to the Auditorium tonight, with Lois Bolton, have laid their scenes of their rollicking farce in a field infinitely rich in humorous possibilities—in brief, in a big apartment house in New York which is so compact that neighborliness is at once horrible to indulge and impossible to avoid.

In one apartment live Harry Hawk and his bride—he a modest business man with a domestic desire to soft-pedal on parties, and she a delectable but highly sociable little creature who cannot be prevented from smiling at strangers in the elevators. In the apartment above them live Signor and

Signora Monti—he a \$2,000 a night tenor at the Metropolitan, she the Amazon who picked him out of a Brooklyn cabaret and set him up in the world, and then spent her time and energy checking up on his love affairs. In the apartment below the Hawkings live Amanda and Andrew Larkin—wedded after the first act of the play. He, poor dear, is innocent and faithful—she finds it hard to believe.

It does not require the soul of a prophet to see that, once the tenor came home too exultant to know one apartment from another and so got by mistake, into the other, that the complications were fit to the playwright's hand. Not a chance for rapid-fire situation was overlooked. Not a piece of characterization was omitted.

Start now selling. Performance starts at 8:45 p.m.

"Easy to Make Money."

"Bull" Montana, known to many of the sporting fraternity in Newark as seen as Charles "Kid" Miller, in Bert Ystelt's famous Metro Photoplay "Easy to Make Money" which is screened at Manager Penberg's Auditorium tomorrow, Lyndel in the role of James Frederick Slocum, Jr., has a role that will hunt you many a laugh.

James Frederick Slocum, Jr.—Jimmy, for short—was not in love with Katherine Fowler, although betrothed to her for some time by their respective fathers. Neither was she in love with Jimmy, although he was a perfectly charming young fellow. Jimmy was a genius at speeding and spending and gave little thought to the future.

Very much engrossed in a championship game of billiards, Jimmy forgot to keep his dinner engagement with Katherine, who, after trying to locate him, turned to his father for help. The senior Slocum called the club and ordered Jimmy home.

There an understanding was in order and Jimmy expressed his desire that there was no love between him and Katherine, at which Dad decided to confront the girl and find out. To capitalize his claim Jimmy bet Dad one hundred dollars that she did not love him, and when the girl calmly verified this Dad smothered his hurt pride and paid the bet.

Then came Dad's lecture to Jimmy on the pace he was following, the fast life he was leading, and the number of times he had been arrested during the past year. Again Jimmy bets with Dad. He wagers that he will not be arrested but once during the next year. The bet is twenty-five thousand against Jimmy's ten thousand with the boy promising not to borrow his from Dad in case he loses.

The Latest Sensation in Farce.

It is announced that one of the breeziest, fastest-moving, most hilarious bedroom farces yet to make its public bow, "An Innocent Idea," will be presented by Charles Emerson Cook at the Auditorium on Monday evening next featuring John Westley and Robert Emmet Keane. The piece is by Martin Brown, a young playwright, whose originality of idea and creation of surprising situations, have received wide and favorable comment. The main issue of the story of the play concerns two young men, one almost incorrigible through his fascination for the fair sex and his skill in taking advantage of it; the other so puritanical that he happens to be a playwrite who won't even introduce a bedroom scene in his latest play, though that may mean the saving of the piece. The meeting of the two—who are lifelong friends—takes place in one of the magnificent Fitz-Carlton hotels. Ernest Goer, the author, has been to Battie Creek, where his play is being rapidly, to try to infuse some popular life and perhance, a little success, in it; and Henry Bird, the hopeless philanderer, is there because he hopes to

be elected president of the Red-Manufacturers' Convention, which meets at the hotel in the morning. Then it becomes known that the opposition in the Convention is cooking up a scheme with the local paper to compromise Henry Ford at the hotel that very night, thus making his chance for election nil. In order to foil the plot afoot, Ernest promises not to leave Henry's side until the election is over—thus proving to be "a moral man" and above reproach. This intention, however, was hardly carried out owing to many unexpected turns in the situation and surprising complications.

All of this, we are told, results in a veritable avalanche of wit, humor and rollicking fun. In addition it is heralded that ten of the most beautiful actresses on Broadway have been engaged for the leading feminine roles, among them being Claire Whitney (the well-known picture star), Lillian Tuck, leading lady, last season in "Three Faces East," Mary Harper, leading lady with William Collier in "Nothing but the Truth," Clarice Young and others.

The costumes worn by the women in the play are said to be the most beautiful yet created by such wizards of witchery in feminine apparel as Lucille, Tappe and Harry Collins. Seats are now selling.

The Right to Happiness.

An industry that cuts wages below the living level that refuses to reemploy former service men who return for their old jobs and an industry that permits the working conditions to be unsafe and unhealthful, cannot survive.

This is one of the points driven home in "The Right to Happiness," a photoplay of the hour which is to be seen Tuesday at the Auditorium theatre.

"The Right to Happiness" is not a propaganda picture, neither is it a mealy-mouthed smoothing over of a bad situation. It is a forceful, smashing exposure of certain existing conditions with the solution pointed out clearly and dramatically.

Even were it not for the picture's own merit the name of the star would assure it success.

Dorothy Phillips whose work in "The

Heart of Humanity" and "Destiny" was epochal, stars in "The Right to Happiness." He depicts a dual role: a pampered child of society and a child of the Russian soviet.

This is big special originally booked for 3 days. You must see it.

Friendly Enemies.

Since the memorable night in March 1918, when President Wilson rose in his box at the National theatre, Washington and publicly endorsed "Friendly Enemies," that play has been establishing itself as one of the greatest popular successes of all times. It has been playing continuously for two years throughout the length and breadth of the United States and the British Isles to audiences that literally cheered in the enthusiasm of their approval.

"Friendly Enemies" will be presented at the Auditorium on Thursday, Oct. 30 for an engagement of one night with a notable company and a splendid production. President Wilson's comment on the play is internationally famous. He said—"All that I can say has already been said most admirably in this beautiful play. All the sentiments I could express have been admirably represented—sentiments that I hope, will soon grip the world."

ALHAMBRA.

Jack Pickford.

Eschewing old-time methods of getting rid of a jinx, Jack Pickford playing the part of Johnny Spavens in "In Wrong," his latest First National Exhibitor's Circuit release which is seen tonight last times at the Alhambra theatre, uses nothing more than a lusty patchwork and his entire stock of ambitious courage, stimulated by a desire to make of himself a village hero.

Not that Johnny was vain or egotistical. It was simply because he had to accomplish something great in order to see himself straight with the villagers and re-win the love of the pretty daughter of the local banker that he tackled a task that shot him into fame overnight.

For days before the fateful night on which Johnny inscribed his name in the hall of fame he had been pursued by a series of misfortune which were generated from his heart, his job, his family and the local bank president.

"The Brute Maker."

The Alhambra theatre tomorrow offers what is considered one of the most lavish outdoor productions the cinema industry has seen in many years—"Frank Mayo, in 'The Brute Maker.'" Here is a story staged amid the most wonderful backgrounds and scenic effects that the art of the motion picture has yet discovered in this country, of which the New York Telegraph said: "This picture should satisfy its scenic beauty alone." In no production to date has the virile Mr. Mayo reached such heights of dramatic intensity as you will see in "The Brute Maker," a brilliant dramatic gem in an even more brilliant setting. Six reels of thrills are shown and the management believes in offering Alhambra patrons this feature, that they see the best screen drama shown at this house for many a day.

"Playthings of Passion."

Kitty Gordon the fashion setting star of the movies, has some interesting things to say on the art of make-up—not the every day make up most females indulge in by means of powder-puff and pocket mirror or more elaborate vanity case, but the art of make up in the movie studios.

"The art of make-up," says Kitty Gordon, "is really and truly an art in Motion Picture land. Every hour of the working day, the feminine stars—and the masculines, too, for that matter—paint and powder and brush so that they will appear as they should before the searching eye of the camera. A lot of the women stars take maids with them right to the set or the exterior location. These maids are armed with hand mirror, powder puff, lipstick and eyebrow pencil. Rehearsals go forward. 'Now we'll take the picture,' the director finally remarks."

Miss Gordon comes to the Alhambra theatre in her latest screen superpicture "Playthings of Passion" on Monday and Tuesday.

GRAND.

Billy Duncan is at the Grand today in his newest picture, "Smashing Barriers," a film story that is filled with action from start to finish. Assisting Mr. Duncan are Edith Johnson and Joe Ryan, two of the cleverest performers in filmland. In addition there is being shown two splendid comedies, "Between the Acts" by the Big V company, and "Be My Wife" by the Harold Lloyd company.

On Sunday and Monday, Tom Mix, the premier western actor, in "Days of Daring," Anne Luther and Charles Hutchinson in "The Great Gamble," and "Fatty" Arbuckle in "Fatty, the Cop."

Tuesday and Wednesday, Stuart Holmes in "Whisper," and Thursday and Friday, Essie Barriscale in "The Woman Michael Married."

One of the greatest features that has ever appeared in this city is "His Majesty, the American," in which Douglas Fairbanks, is the star, will be at the Grand in the very near future.

LYRIC.

Orth and Coleman's Jubilee Girls company will make its final appearance at the Lyric theatre this evening in "The Isle of Spice," a clever comedy. The company has pleased immensely this week, and indications are there will be a record breaking crowd at the farewell performance.

Sunday there will be presented at the Lyric a special motion picture program, and concert. All next week Hawley's Crackerjacks Musical company will be there.

GEM THEATRE.

A few days ago Mr. Gallagher proprietor of the Gem theatre made arrangements with a representative of the Fox Film Corp., to exhibit in this city at his theatre, their latest photodrama, "Wolves of the Night," featuring William Farnum. Yesterday Mr. John Stueve the popular traveling salesman stated to the management of the Gem theatre that he could safely guarantee that "Wolves of the Night" is the best picture that William Farnum was ever starred in.

MARY GARDEN'S FURS.

The value of Mary Garden's collection of furs exceeds \$150,000. In the evening she wears a sumptuous chinchilla wrap reaching to her feet or a coat of ermine bordered with sable. She never wears a pair of gloves more than once. Her luncheon when she lunches at all, consists of an apple and some dried figs. With her tailored suits she wears in her buttonhole a person camellia. The two strings of pearls that usually hang about her neck, she says, are the largest specimens in the world.

This ultra-extraordinary woman will appear in the Quality Series of concerts in Memorial Hall, Columbus, Tuesday evening, November 11th. Single seats go on sale Nov. 8 at Miss Lacey's box-office, 56 Chamber of Commerce. Mail orders will be filled immediately after the subscription coupons have been taken out.

WE BELIEVE IN THE FUTURE OF NEWARK

The Chamber of Commerce says that Newark has a population of 35,000.

Perhaps it has more. We note that every school building is filled to the brim.

It is a live town, a good town to live in, a good town to do business in.

We are glad to be a part of Newark and its growth. We are here because we believe in the present and the future of Newark. Why are you here? Probably for the same reason.

And do not overlook the fact that good telephone service is necessary to this growth of Newark. We not only have good telephone service but there is no better anywhere and more Newark people use telephones than ever before. The rate for a telephone in a home is so moderate, less than 5 cents a day, that it won't be long before practically every home in Newark will have a telephone.

Newark is a great town and we folks in Newark know it, and that's the reason it is a great town.

PROPOSED AMENDMENT TO THE CONSTITUTION OF OHIO. CLASSIFICATION OF PROPERTY FOR PURPOSES OF TAXATION.

Be it resolved by the General Assem-
bly of the State of Ohio, three-
fifths of the members elected to
each house concurring therein:

That there shall be submitted to the
electors of the state for their approval
or rejection, at the regular election to
be held on the first Tuesday after the
first Monday in November, 1919, a pro-
posal to amend Article XII, Section 2,
of the constitution of the State of Ohio,
to read as follows:

Section 2 All property shall be
taxed by such rules and methods and
in such classes as may be provided by
law. The rules and methods shall be
uniform within the classes so estab-
lished. But all bonds outstanding on
the first day of January, 1913, of the
state of Ohio or of any city, village,
county, or township in this state, or
which have been issued in behalf of
the public schools in Ohio and the means
of instruction in connection therewith
shall be exempt from taxation; and
burying grounds, public school houses,
houses used exclusively for public
worship, institutions used exclusively
for charitable purposes, public prop-
erty used exclusively for any public pur-
pose, and personal property, to an
amount not exceeding in value five
hundred dollars, for each individual,
may, by general laws, be exempted
from taxation; and laws may be passed
to provide against the double taxation
that results from the taxing of both the
real estate and the mortgage or the
debt secured thereby, or of both lien up-
on it; but all such laws shall be subject
to alteration or repeal; and the value
of all property so exempted shall, from
time to time, be ascertained and pub-
lished as may be directed by law.

Be it further resolved, That the re-
quired publication of the said proposed
amendment shall be made and the form
of the ballots to be used at said elec-
tion for the submission thereof shall
be prepared by the secretary of state.
Returns of the votes cast at said elec-
tion shall be made by the proper elec-
tion officials to the secretary of state,
who, with the governor and the attor-
ney general, shall open and canvass
the same. If a majority of the electors
voting on the said amendment shall
be ascertained to have voted in favor
thereof, the governor shall make
proclamation thereof without delay.

(POLITICAL ADVERTISEMENT)

Keep your money in Ohio for you will have an opportunity at the Election,
November 4th, to vote for an amendment to the Constitution that guarantees,
under a system of classification of property for taxation, as square a deal for
your money as you will find in any other state.

(This Kentucky advertisement surely is the last word in answer
to the opposition to classification)

Bring Your Money To Kentucky

Bring your money to Kentucky if you want it to work
for you under tax laws that give a square deal to money-
money on deposit or money invested.

Bring your money to Kentucky and invest it in any in-
dustry and you will find you won't be penalized by tax
laws that confiscate your money's earnings.

Bring your money to Kentucky and buy a productive
farm in a State where the crown of tax inequality is not
pressed down on the brow of the man who has his money
in land.

Bring your money to Kentucky where each class of property is taxed
according to its ability to earn; where, under our system of classi-
fication which has been in effect for two years, the tax revenues de-
rived from land have been reduced from 77% to 57% of the entire tax
revenues collected.

Bring your money to Kentucky for deposit or investment under a
tax law that does not punish the honest taxpayer; that offers no
incentive for any taxpayer to be dishonest; that operates so fairly on all
classes of property that tax-evasion is rapidly being reduced to a
minimum.

Kentucky has wonderfully fertile fields, coal enough to energize the whole United
States, splendid rail and water (Ohio River) transportation, unexcelled manufacturing
sites, plentiful financial resources, a liberal buying public, and FAIR TAX LAWS.
Louisville, the Heart of America, is the gateway to Kentucky and the South and offers
unexcelled opportunities to industries.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. "Fusses did me no good. Readers' Viewpoint

ROOSEVELT MEMORIAL.
Editor the Advocate:
I wish to say a word in reference to the drive for funds to establish the Roosevelt Memorial.

1. I believe the Memorial as projected is not the proper idea. It is not as broad as it should be. It is not as American as Roosevelt.
2. The time is not opportune. We have had too many drives for money. It is not mature enough. It is too sentimental.
3. For a man like Roosevelt the Memorial should be in a center where people could visit it from all parts of the country with the least expense.
4. It ought to be educational on lines commensurate with his manifold talents.
5. It ought to come from the representatives of all the states assembled in congress.

6. To be enduring it ought to be well considered and satisfactory to the people of the whole country. It gives me great pleasure to see this great man recognized in his true character after having been assailed as a demagogue because he strove to reform the wavering ranks of the Republican party and instill into the hearts of his countrymen the spirit of sincere patriotism. But Sagamore is too small and too much out-of-the-way to commemorate his life and actions. Let the Memorial stand midway in the nation and let it be educational in the highest sense. The country can afford to wait until the proper plans shall be thoroughly considered and the people better prepared. Finally—as the proposed monument will make Roosevelt the Apotheosis of the late struggle and victory for the allies and especially for us—I would like to know whose mind or to whom we are indebted and what are the motives for this great Rooseveltian honor.

Was he the great mover and sustainer of the forces of the United States? Do we owe more to him in this regard than to any other man? I have been an admirer of Roosevelt always even when he was abused but nevertheless I want this matter justly handled to the satisfaction of the nation and not to any particular section of it.
